

## Popup Blocker Exception Guide

### Internet Explorer

To access the pop-up blocker settings:

1. Open Internet Explorer.
2. Click on the **Tools Menu Bar** item, and click on **Pop-up Blocker** and **Pop-up Blocker Settings**.

### 3. To Add a Website to the Pop-up Blocker List

Type in the website address that you want to allow to display automatic pop-ups in the '**address of website to allow line**', then click on the **Add** button.

4. When you have selected the website address click on the **Close** button.
